

Annual Campus Safety and Security Report
Eastern Iowa Community Colleges
2021-2022

The following statements provide information regarding compliance with the requirements under Title II Crimes Awareness and Campus Security Act also known as the Jeanne Clery Disclosure of Campus Security Act. This information is distributed through a direct link to all students and employees through the Annual Security Report. Paper copies are available upon request of the dean of student development.

The report includes statistics for the previous three years concerning reported crimes that occurred on the EICC campuses; in certain off campus buildings or property; or public property immediately adjacent to and accessible from the campuses. The report also includes information about institutional policies concerning campus security. The report is prepared in cooperation with local law enforcement agencies. Campus crime statistics include those reported to the dean of student development and local law enforcement agencies. Law Enforcement agencies are contacted on an annual basis to request information about applicable reported crimes that occurred on campus and adjacent public property. The dean of student development is the designated college official for the collection of crime report information and allegations of Clery Act and VAWA crimes.

1. **Crime Reporting:** EICC takes every possible precaution for crime prevention. If a crime should occur on one of the EICC locations, the victim or persons having knowledge of the crime should immediately contact the local law enforcement at 9-911. Additionally, the crime should be reported to the Dean of Student Development, Facilities Manager or through Ancillary Services. With each report, an incident report must be completed and filed. The District Administrative Procedures Manual contains the policies of the District relative to campus security procedures and the reporting of incidents. This manual is available at each college and can be accessed from the District Intranet site.
2. **Security Systems:** Security systems are in place at facilities owned or controlled by the college. The manager of buildings and grounds is responsible for ensuring that security systems are in place which protect and control access to the buildings.
3. **Security Personnel:** Clinton Community College and Muscatine Community College do not employ security personnel. Law enforcement and private security firms are relied upon to provide quick response to security needs. In all matters where it is deemed appropriate, an incident report using the appropriate reporting form will be filed through the college's Ancillary Services Office or Dean of Student Development Office. Effective July 1, 2019, Scott Community College has employed a security official to provide oversight of the campus.
4. **Programming:** Annually, the college provides programming that includes student orientation, and staff development activities designed to make people aware of their own security and the security of others. In the best interest of the entire college community, EICC students and staff are collectively encouraged to use good judgment in their actions on or around the college campus. The individual well-being of each person should be the overriding goal of all people associated with the community college district. EICC will remain diligent in its efforts to promote a safe and secure campus environment. Safety and Security programs offered include, but are not limited to: self-defense, home security, prevention of sexual assault and domestic violence and substance abuse. EICC provides electronic training modules through SafeColleges training for students and staff.
5. **Drug and Alcohol Policy:** EICC prohibits the unlawful possession, use or distribution of controlled substances by students and employees on property owned or leased by EICC or in conjunction with EICC sponsored activities. Violations of this policy will result in the initiation of disciplinary action. Alcoholic beverages may be allowed at certain college events with prior administrative approval. The guidelines for the utilization of alcoholic beverages at student events are available from the designated college activities coordinator. Violations of the District policies regarding alcoholic beverages will result in disciplinary action. Programming is provided for students through SafeColleges training modules.
6. **Sexual Offense Reporting:** As with other incident reporting, contact should be made with the Dean of Student Development or Ancillary Service Office. The local police department has law enforcement authority for campus crimes. After reporting occurrences to the site administrator, any criminal occurrences should

also be reported to the local police. Students have the option to contact proper law enforcement authorities, and the college will assist, if requested.

7. Sex Offender Registration: Iowa law requires a person who has been convicted of a sex offense anywhere to register with the sheriff in the county in which they reside. Information about sex offenders is maintained by the Iowa Department of Public Safety and can be accessed at www.iowasexoffender.com.
8. Emergency Notification: In an effort to keep students and employees safe and informed in emergency situations, EICC provides EICCAAlert as a free service. EICCAAlert sends text and voice messages and email notification about significant emergency or dangerous situations involving an immediate threat to the health or safety of students or employees. The service also allows users to receive messages when the college is closed due to weather. Students and staff may sign up for EICCAAlert on EICCConnect.
9. Timely warnings: In the event that a situation arises, either on or off campus that, in the judgment of the campus Administrative Team, constitutes an ongoing or continuing threat, a campus wide timely warning will be issued. The warning will be posted on monitor systems throughout the campus(es) and e-mail messages will be sent. Messages will also be sent using the EICCAAlert system that provides text messages.
10. Access and Security to Campus Facilities: Each building in EICC maintains hours of operation. Buildings may have individual hours which may vary at different times of the year. Buildings will be secured according to the schedule developed by the campus.
11. Emergency Preparedness: Plans for each EICC location are posted on line and outline the steps that should be taken in case of emergencies. Fire and weather condition procedures are posted in each room. Regular drills are scheduled for each location.
12. Security Awareness: EICC encourages all students and staff to be aware of their surroundings. Students and staff are encouraged to keep their personal belongings in sight at all times. Should any suspicious behavior be observed, it should be reported to the Dean of Student Development or facility manager.

DRUG-FREE SCHOOLS AND CAMPUSES ACT

ALCOHOL AND DRUG ABUSE PREVENTION

The unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance on college premises or while representing the college off campus is absolutely prohibited. Violations of this policy will result in disciplinary action, up to and including expulsion, and may have legal consequences. Alcoholic beverages may be allowed at certain college events with prior administrative approval. The guidelines for the utilization of alcoholic beverages at student events are available from the designated college activities coordinator. Violations of the District policies regarding alcoholic beverages will result in disciplinary action.

NON-DISCRIMINATION/ANTI-HARASSMENT

(A) Purpose and Expectations

Eastern Iowa Community Colleges is committed to maintaining a workplace and academic environment free of discrimination and harassment. Therefore, the college does not tolerate discriminatory or harassing behavior by or against employees, faculty members, vendors, customers, students or other persons participating in a college program or activity.

While the college does not tolerate any form of discrimination or harassment, the Non-Discrimination/Anti-Harassment Policy and related procedures are intended to cover discrimination and harassment based on protected class. Protected classes for purposes of this policy are sex, race, color, religion, national origin, ancestry, age, disability, genetic information (GINA), military status, sexual orientation and gender identity and expression.

Anyone who is subjected to conduct that creates an intimidating or hostile environment regardless if the conduct is based on a protected class, shall report the conduct to a person outlined in Section D of this policy.

In furtherance of these expectations, employees and students must participate in required training.

(B) EEO/TITLE IX Definitions of Discrimination/Harassment

As used in this policy, the following terms are defined and will be adhered to as follows:

Discrimination – when a person, or a group of people are treated less favorably than another person or group of people on the basis of a protected class.

Discrimination may occur in several forms:

1. *Disparate Treatment* – when an individual is treated differently from a person who is similarly situated because of membership in a protected class.
2. *Disparate Impact* – when a policy, practice or decision is based on neutral factors that have an adverse impact on a protected class.
3. *Harassment* – physical, non-verbal or verbal conduct that has the purpose or effect of creating an intimidating, hostile or offensive work or academic environment. The harassment must be based on a protected class and interfere with an employee's terms and conditions of employment or a student's academic or athletic achievement.
4. *Hostile Environment* – occurs when the conduct at issue is so severe or pervasive that it creates an intimidating, abusive or offensive environment regarding employment, academic or athletic decisions for a person in a protected class. A single instance of discrimination may be sufficient to create a hostile work environment

(C) Consequences of Discrimination/Harassment

1. *Employees* – any employee found to be in violation of this policy will be subject to disciplinary action, up to and including termination of employment.
2. *Students* – any student found to be in violation of this policy will be referred to the Campus Dean of Student Development and the EEO/Title IX Compliance Office for resolution in accordance with the Student Code of Conduct.

(D) Reporting Responsibilities

1. Anyone who believes that an administrator, supervisor, employee, faculty member, student or non-employee's behavior constitutes discrimination or harassment has a responsibility to report the behavior/action as soon as it is known.
2. In cases of alleged discrimination/harassment in employment or if the victim or alleged perpetrator is an employee, the complaint may be made to any of the following:
 - a. The Equal Employment Opportunity (EEO) Title IX Compliance Officer
 - b. A campus president, supervisor, director, dean, chairperson, or other administrator
 - c. An employee of the Human Resources department

3. In case of alleged discrimination/harassment when the victim and/or alleged perpetrator is a student, a potential student, or someone participating in a college athletic event, the complaint may be made to any of the following:
 - a. The Equal Employment Opportunity (EEO) Title IX Compliance Officer
 - b. The Dean of Student Development
 - c. A campus president, dean, chairperson, or other academic administrator
 - d. The college's athletic coach
4. Any person designated to receive complaints under this policy who has direct or constructive knowledge of alleged discriminatory or harassing behavior must immediately report behavior to the EEO/Title IX Compliance Officer. Failure to do so shall result in disciplinary action, up to and including termination of employment.
5. Any employee who witnesses behavior which may be deemed to violate this policy is expected to report the behavior as outlined above.

(E) Academic Freedom/First Amendment Guidelines

1. The college is committed to providing a safe, anti-harassing, and non-discriminatory environment that protects the civil rights of individuals, and the college recognizes the constitutional protection of academic freedom in the classroom.
2. This policy is not intended to restrict serious discussion of controversial issues in a training or academic situation.

(F) Confidentiality

To the extent possible, all information received in connection with the reporting, investigation and resolution of allegations will be treated as confidential, except to the extent it is necessary to disclose information in order to investigate, prevent or address the effects of the discrimination/harassment, resolve the complaint or when compelled to do so by law. All individuals involved in the process should observe the same standard of discretion and respect for the reputations of everyone involved in the process.

(G) Retaliation

College policy and federal, state and local law strictly prohibits retaliation in any form against any employee, faculty member, student, vendor customer, or other person participating in a college program or activity who complains or reports an allegation, or who participates in an investigation of discrimination or harassment. Retaliation is a serious violation that can subject the offender to sanctions independent of the merits of the allegation. Allegations of retaliation should promptly be directed to the EEO/Title IX Compliance Officer.

- (H) The Chancellor shall establish procedures to administer this policy, including an EEO/Title IX Reporting and Investigation Procedure.

TITLE: STUDENT PERSONNEL – EICC Board Policy

-- Sexual Misconduct Policy (Title IX)

Eastern Iowa Community College District is committed to fostering an environment in which all members of the college community are safe from sexual misconduct in any form. EICCD prohibits sexual misconduct in any form including, but not limited to, sexual assault, sexual harassment, sexual exploitation, stalking, domestic violence, dating violence, and retaliation. The College will respond to reports of sexual misconduct as outlined in this policy. These standards apply equally to all individuals regardless of the sex, gender, sexual orientation, gender identity, or gender expression of any of the individuals involved.

This policy applies to any allegations of sexual misconduct against an EICCD student regardless of where the alleged sexual misconduct occurred.

EICCD strives to create an environment that will encourage students to come forward if they experience any form of sexual misconduct. The College will work to safeguard the identities and privacy of students who seek help or report the misconduct. There are, however, limits to the confidentiality. Reports describing conduct that is inconsistent with the policy will be promptly and thoroughly investigated. Complaints about violations will be handled discreetly, with facts made available only to those who need to know to investigate and resolve the matter. The College must also balance the needs of the individual with its responsibility to protect the safety of the college community. Depending on the seriousness of the alleged incident, further action may be necessary, including a timely warning notice. Any such notice would not include information identifying the student.

Many victims of sexual assault are unsure of where to seek help or what steps to take after a sexual assault. While the choice to act rests solely with the affected student, EICC encourages students to take action to ensure their safety and recommends students take the following actions:

- Students should get to a place of safety as soon as possible.
- Contact the local police department (911) and the appropriate college Dean of Student Development at the number listed below.
- Victims of sexual assault are strongly encouraged to seek immediate medical assistance at an area hospital or medical clinic.

Students may report incidents of sexual misconduct to the following EICCD personnel: Dean of Student Development, Clinton Community College, (563)244-7002; Dean of Student Development, Muscatine Community College, (563) 288-6001; Dean of Student Development, Scott Community College, (563) 441-4016; or EICCD's EEO/Title IX Coordinator, (563) 336-3300.

The College does not employ counseling employees subject to confidentiality. A student may request for confidential reporting of a crime to an employee; but it is the responsibility of the employee to report the names of

those involved, important facts regarding the alleged incident to the Dean of Student Development or the Title IX Coordinator. If the student requests confidentiality, the Title IX Coordinator will make every effort to respect the request and will evaluate the request in the context of the college's responsibility to provide a safe environment for the college community.

In cases of sexual misconduct, EICC shall consider appropriate disciplinary actions against individuals accused of these offenses conditioned on the facts determined in each case. The procedures are outlined in the EICC Student Code of Conduct, and Student Discipline and Due Process Code, and EICC Administrative Procedures manual. The process allows for both the accuser and accused to have the right to appear alone, with an advisor, or with legal counsel. Both parties will be informed of the outcome.

Students reporting incidences of dating violence, domestic violence, sexual assault, or stalking will be provided a written document outlining steps, student rights, and options.

Sanctions that may be imposed following the final determination are listed in Chapter 5-500 "Disciplinary Penalties" of the EICC Student Discipline and Due Process Code.

Individuals who witness or become aware of situations of misconduct are encouraged to report the situation to the Dean of Student Development or the Title IX Coordinator. Bystander training is made available for students and employees through the Safe Colleges training modules.

EICC prohibits retaliation against any individual for making a complaint, assisting another in making a complaint, or participating in an investigation under these policies. Any individual experiencing any actions that may be retaliatory in nature should immediately report it to the Dean of Student Development or Title IX Coordinator.

EICC will not pursue disciplinary action for improper use of alcohol or other drugs against a student who reports in good faith an incident of sexual misconduct or who participates in an investigation.

EICC encourages prompt reporting of complaints and information regarding sexual misconduct. While there has been a 180-day limit for reporting established, prompt reporting will allow the college to respond to any allegations. The College will not be able to pursue disciplinary action against students who are no longer enrolled at the College.

EICC will conduct a prompt investigation of all reports of sexual misconduct. An attempt will be made to complete investigations within 60 days of the report. The timeline for the final resolution will be based on the complexity of the investigation.

Investigation Procedures and Protocols:

Initial Response: Upon receiving a report of alleged sexual misconduct, the Dean of Student Development will schedule a meeting with the reporter to review the policy and identify needed support or accommodations for the individual. The Dean of Student Development will determine the next steps which may include further investigation or no further action. The Title IX Coordinator will be immediately notified of the report and recommended steps.

The Dean of Student Development may take interim action for the safety of students and to ensure the integrity of the investigation. Such actions may include interim suspension of the accused student or no contact notice between the individuals involved. Necessary accommodations may be made and may include adjustments to academic and/or work schedules, adjustments to on-campus housing arrangements, and assistance with other academic concerns (absences, missing assignments, grades, leave of absence, and withdrawal from classes).

After a complaint has been made, the Dean of Student Development and the Title IX Coordinator will determine the best individual to conduct the investigation. This may be an EICC staff member or an individual hired to conduct the investigation. The investigator serves as a neutral individual whose intent is to gather facts. Interviews will be conducted with the complainant, the accused student(s) and third party witnesses. The complainant as well as the accused student(s) may have an advisor with them at all times.

After conducting the investigation, a report will be submitted to the Title IX Coordinator and shall include a summary of all interviews and a recommendation to continue with discipline or to dismiss the complaint. The Title IX Coordinator will make the final recommendation and present to the Chancellor for final determination. The report will be distributed to the complainant and the accused student(s) as well as to the Dean of Student Development.

The Disciplinary Procedures are outlined in the Student Handbook and EICC Board policies section 400 for employees. Disciplinary actions for sexual offenses will occur following a complete investigation. Missing Person's Procedures
Muscatine Community College Housing

Definition:

A missing student is deemed as: Any students residing in on-campus student housing who has not been seen on campus and cannot be reached by acquaintances for a period of more than 24 hours.

As a Muscatine Community College (MCC) student in housing, you have an option to identify a specific individual of contact should you be deemed missing. This information will be kept confidential and the information will be accessible only to authorized campus officials and law enforcement personnel to assist with a missing person investigation. If you choose to not identify a specific contact, MCC will contact the person(s) identified on your Emergency and Medical information sheet. Per regulations, MCC will contact a custodial parent or guardian for those residents under the age of 18 years and who are not emancipated, within 24 hours of being determined to be missing.

Student Notification Procedures:

Students who believe a resident in housing is missing for more than 24 hours should contact the apartment Manager (Housing Supervisor in the absence of the manager) at once. The Manager or Supervisor will then contact the Dean of Students.

Apartment Manager/Supervisor Procedures:

Upon receiving notification from a person, of a suspected missing housing resident, the Manager or Supervisor will concurrently contact the Dean of Students and verify resident absence.

The Dean of Students shall contact the student's emergency contact person(s) identified (unless under the age of 18, then a custodial parent or guardian).

Once the student has been determined missing, the Dean of Students shall contact the Muscatine Police Department to file a missing person's report within 24 hours of officially being determined to be missing.
