

The Targeted Small Business (TSB) Assistance Program supports the creation and expansion of specified businesses. To qualify for the program, a business must have annual gross sales of less than \$4 million and be at least 51% owned, operated and actively managed by women, minorities or persons with disabilities.

The business must be certified as a "Targeted Small Business" by the Iowa Department of Inspections and Appeals before applying for or receiving TSB funds. A business can receive "Targeted Small Business" certification through the **Iowa Department of Inspections and Appeals** [www.dia.iowa.gov].

Forms of Assistance

- > Loans of up to \$50,000 may be provided at interest rates of 0-5% that must be repaid in monthly installments over a five year period. The first installment can be deferred for three months for a start-up business and one month for an existing business.

Procurement

According to Iowa Code, each year State Agencies are required to set a spending goal related to doing business with targeted small businesses. The spending goals each agency sets are self-determined but the agency should strive to exceed the previous year's goal.

Another advantage of being a certified targeted small business is the exclusive access TSBs are given to a 48-Hour Iowa TSB Procurement website. State agencies seeking goods and services place their job bids on this website 48 hours before they are shared on the public website, giving the TSB an edge in competing for the job.

Finally, certified TSBs are encouraged to market directly to State Agencies, letting them know of their capabilities and their interest in doing business with the agency. Periodically we offer workshops called "Doing Business with the State of Iowa" around the state, where TSBs can hear directly from purchasing agents with some of the States larger agencies (for example Department of Transportation or Department of Administrative Services).
