The graduation requirements for the Associate in Arts degree consist of two parts:
 (1) General Education and (2) Concentration courses or electives.

EICC holds that general education is “that aspect of the instruction program which has as its fundamental purpose the integration and development of every student’s knowledge, skills, attitudes, and experiences so that the student can engage effectively in a life-long process of inquiry and decision-making.” (EICC General Education Goals, 2017)

- As a result of their college studies, all EICC students should prepare for twenty-first century challenges by gaining:
- Knowledge of Human Cultures and the Physical and Natural World** - Through study in the sciences and mathematics, social sciences, humanities, histories, languages, and the arts
 - Intellectual and Practical Skills, Including** - Inquiry and analysis; Critical and creative thinking; Written and oral communication; Quantitative literacy; Information literacy; and Teamwork and problem solving
 - Personal and Social Responsibility, Including** - Civic knowledge and engagement-local and global; Intercultural knowledge and competence; Ethical reasoning and action; and Foundations and skills for lifelong learning
 - Integrative and Applied Learning, Including** - Synthesis and advanced accomplishment across general and specialized studies.

Students may choose electives according to their needs, interests, and the requirements of their intended transfer institution. EICC strongly recommends you contact your intended transfer institution for specific transfer information and course recommendations.

A pathway allows a student to develop more depth of knowledge in one or more areas of study. Students may choose to follow the recommendations of a particular pathway or may select any combination of electives to complete the Liberal Arts concentration. Course recommendations within each pathway are available in the EICC online college catalog or from academic advisors.
