

Transfer Assistance Guide
EICC: Clinton, Muscatine & Scott Community College
University of Northern Iowa – Biology (B.S. & B.A.)

This Transfer Assistance Guide is intended to assist students who plan to transfer to the University of Northern Iowa (UNI) and pursue a major in biology to earn a B.S. or a B.A. (emphasis available in biomedical, ecology, evolution and organismal biology, and teaching). Use this guide with an EICC A.A. Graduation Worksheet to select your courses. **Note: This document was accurate on the date it was prepared but may not reflect subsequent changes by UNI or the colleges of EICC. For this reason this document should be used as a guide only and should not replace consultation with your community college advisor or UNI advisor.**

Transfer of the A.A. Degree

As you select courses for your A.A. degree, include a course that will fulfill UNI's Non-Western Culture course requirement, and complete any courses needed to fulfill the UNI world language requirement. Students who complete these UNI requirements while earning their A.A., and transfer with a cumulative G.P.A. of at least 2.0, will be admitted as a junior and will be deemed to have fulfilled UNI's freshman and sophomore level general education requirements. A final Capstone course will need to be completed as a Junior or Senior at UNI. Note that UNI requires students to receive a grade of C- or higher in courses transferred to UNI that are to be applied to a biology major. A maximum of 65 credit hours may be transferred.

Non-Western Culture Requirement: The following courses will fulfill the UNI non-western culture requirement (Select One)

- CLS:121 Studies in Non-western Culture
- CLS:150 Latin American History & Culture
- HIS:211 Modern Asian History

World Language: The UNI foreign language requirement can be satisfied by 2 years of the same foreign language in high school with a C- or better in the last term OR 2 semesters of the same foreign language in college with a C- or better in the last semester. (Courses in American Sign Language will fulfill the foreign language requirement as well.)

The UNI Registrar has the final authority for accepting or rejecting credit for transfer. Students who do not complete an A.A. degree prior to transfer will have their courses reviewed and accepted on a course-by-course basis.

Admissions Partnership Program (APP): Once you have been accepted to EICC, you may participate in UNI's Admissions Partnership Program. APP allows you to receive customized academic advising and other benefits from UNI while completing your associate's degree. More information along with an application can be found at <http://www.uni.edu/admissions/app>.

In addition to the courses noted above, the following courses offered by the Colleges of EICC are recommended to students who plan to transfer to UNI and major in Biology:

COURSE #	TITLE	CR	UNI EQUIVALENT	B.A.	B.S
BIO:114 & BIO:115	General Biology IA & General Biology IIA	8	BIOL 2051 & BIOL 2052	x	x
CHM:165/166	General Chemistry I	4-5	CHEM 1110	x	x
CHM:175/176	General Chemistry II	4-5	CHEM 1120	x	x
CHM:261/263 OR CHM:132	Organic Chemistry I OR Intro to Organic & Biochemistry	4-5 4	CHEM 2210/ CHEM2220/2230 or CHEM 2040	Either	CHM 261/263
CHM:271/273	Organic Chemistry II	4-5	CHEM 2220/2230		x
MAT:128 MAT:210	PreCalculus Calculus I	4	MATH 1140 MATH 1420	Either	MAT 210
PHY:162	College Physics I	4	PHYSICS 1511	x	x
PHY:172	College Physics II	4	PHYSICS 1512	x	x

Information about UNI's biology major can be found at www.uni.edu/chas/academics/biology and additional information about transferring to UNI can be found at <http://www.uni.edu/admissions/transfer/>
